To whom it may concern.

I am writing this letter to inform you that upon evaluation that there will not be any problem with the access to lot #1-1-1.52. The angle of approach is more than sufficient for the emergency vehicles to egress to the house and or property that Mr David G Tonneson is in the process of developing at the end of Hemlock Street If an emergency situation may arise. There is also more than enough room at the top of the drive way to turn any of our responding apparatus around. My self and one of my other officers had taken one of our biggest apparatuses to the location in question and verified that there is no problem with egress to the home and there is more than enough room. You can find several pictures attached to verify. If there is any questions I can be contacted by my cell 914-805-0325 or by my email dsmithfmd@yahoo.com.

Thank you,

Donald V Smith JR
