

Dialog above Image0

These submissions include review of Deborah Kopald's Appeals Court submissions of this video (and other photos) of David Tonneson on his mini excavator (which he has personally owned for many years) loading an equipment bucket into the back of a buyer's pick up truck on July 24, 2020. He asserts he WAS NOT doing construction because construction is complete and the house is occupied by the newlyweds. We are being stalked and our property is clearly being illegally trespassed on by Deborah Kopald. (She has received three cease and desist by three different attorneys!)

Dialog below Image0

The bottom photo was taken by Deborah Kopald on Saturday, July 24th, 2020 and submitted to the appeals court in New York City. The photo clearly shows she was stalking, harassing and illegally trespassing on the Tonneson property because the top photo was recreated in the exact location on August 19, 2020, While she was positively illegally standing well within the boundaries of the Tonneson property 11-1-1.52.

*Cease and desists are attached herein.

There are several other photos she submitted that were taken while she trespassed and stalked the Tonneson family. No trespassing signage is posted in numerous locations throughout the Tonneson property.
